

Dear INWRDAM Board Members
Assalam-u-Alaikum,

December 20, 2018
Amman, Jordan

Since February 1994, I have had the immense good fortune to serve as Executive Director of the Inter-Islamic Network on Water Resources Development and Management (INWRDAM), your organization. Since I joined INWRDAM that had been established few years earlier, I have worked with COMSTECH, focal points, project directors, and with a very dedicated staff of INWRDAM to honor and build upon that legacy and to position this organization for an even more vibrant future.

With a long list of successfully implemented cooperation programs, now it is a good time to share with you my plans for transition to the next stage of my forty six years long professional career as chemical engineer: to retirement. With this in mind, I am planning to dedicate more time for my family and to a growing number of my grand children and to my life long hobby of photography.

Working with INWRDAM for the past twenty-four years, with your friendship and support so generously offered, has given me more intellectual, moral, and personal satisfaction that I could ever express in words. The vitality and commitment of the supporters and friends, and the staff of INWRDAM, plus the evident recognition of COMSTECH for INWRDAM achievements augurs well for the organization's future.

Thank you for all your support and for helping to make INWRDAM into an organization that is making a difference in better water resources management among nineteen of its member countries.

Warmest Regards
Murad Jabay Bino
